Sensoriel Gadgets

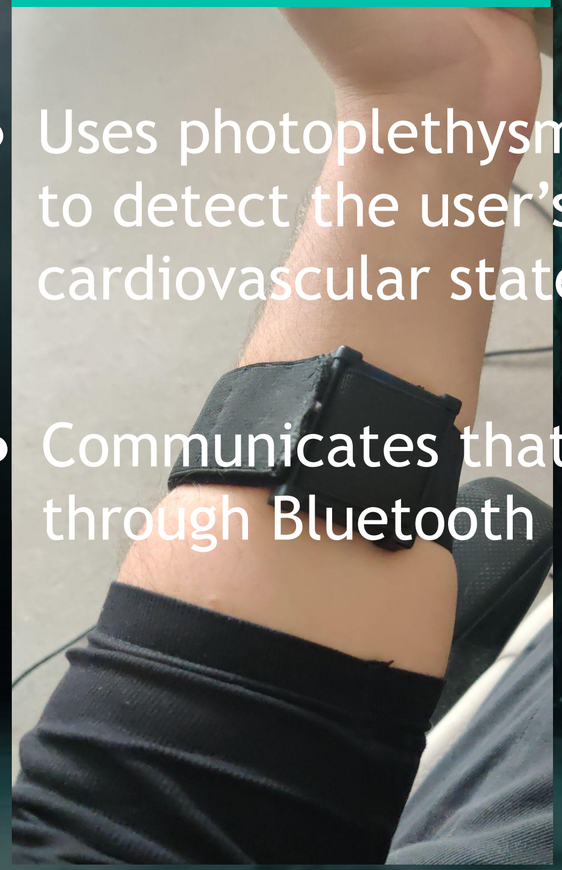
- Aim is easier and more intuitive
- Gun recoil force & vibration changes with bullet type

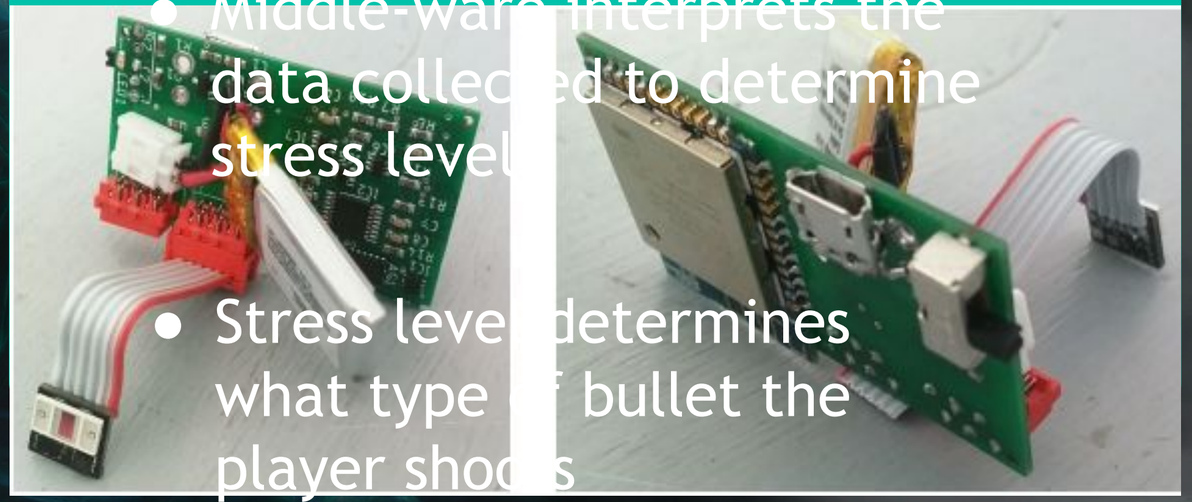
ForceTube™ Haptic Feedback Gun

EmotionCapture™



- Uses photoplethysmography to detect the user's cardiovascular state
- Communicates that data through Bluetooth

EmotionCapture™



- Middle-ware interprets the data collected to determine stress level
- Stress level determines what type of bullet the player shoots

For some Playgrounds :

- The floor shakes when Cthulhu attacks

- The floor rumbles when the platform is moving through the tunnel

Immersive Floor Shaker
